WEIGHT: 124,973 kg

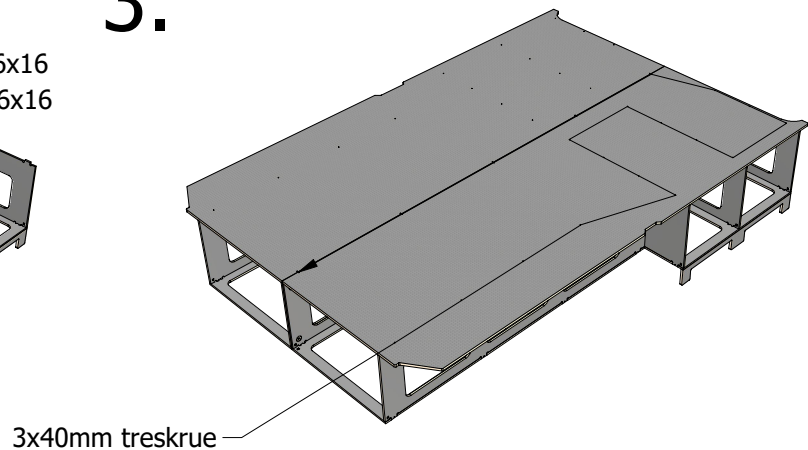

1.

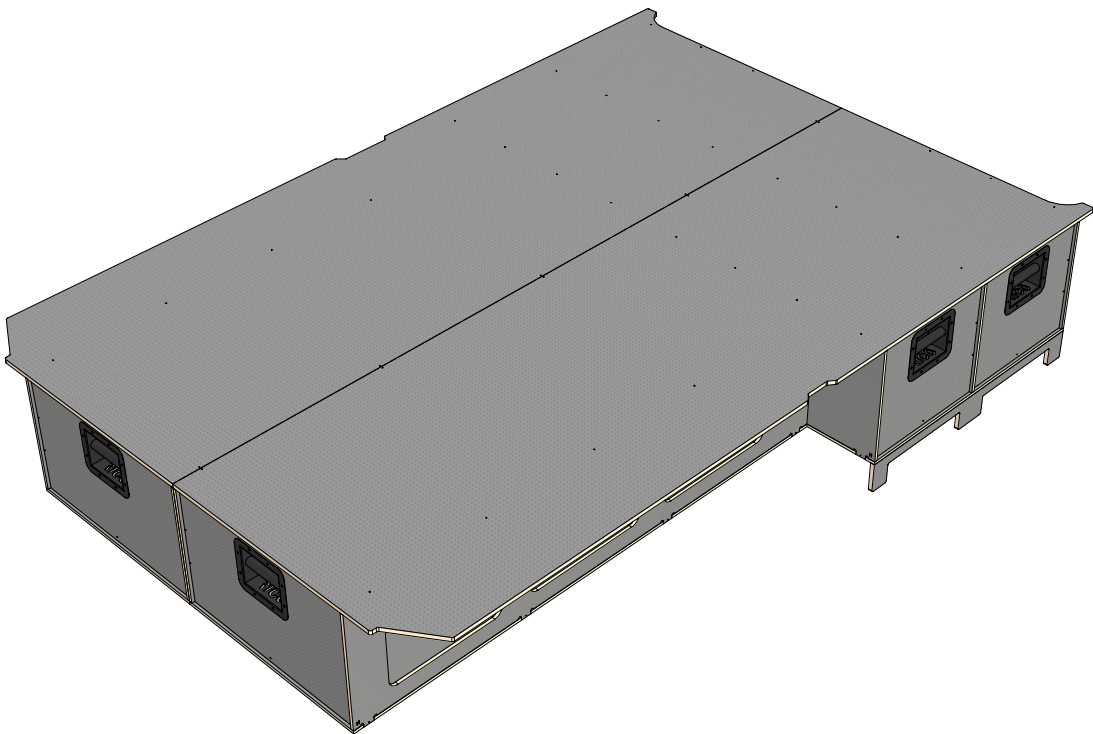

2.

3.

4.

Instruksjoner:

Før montering:

- Fjern eventuell dørkplate i tre (Original grå plate i kompositt skal **ikke** demonteres, gjelder **Vito** og **I.D Buzz**)
- Ta ut skuffene fra gulvmodulene for lettere håndtering.
- Skrue av dørkplate på høyre gulvmodul (som fig.2)

Montering:

- Sett inn venstre gulvmodul
- Høyre gulvmodul legges inn i bilen og boltes sammen med venstre modul (4stk **M6x16mm**)
- Plasser høyre dørkplate oppå gulvmodulen og skru fast med medfølgende skruer (**3x40mm**)
- Om du har bestilt gummibelegg skal dette nå monteres. Rull ut den formskjærte gummien og påse at den flukter med dørkplate i alle døråpninger. Skru deretter på de medfølgende vinkelstene (**3x16mm**)
- Skuffene kan nå settes på plass (vippes opp ca 30 grader)

Monteringen er nå fullført, belønn deg selv!

Vi ønsker og takke for at du valgte RICO Innredning i ditt kjøretøy.
